

## CT3535 Assignment 2

Acme University are currently developing a new software system. You are required to write and run appropriate JUnit 4 Test Cases for each of the classes outlined in the UML diagram below. Once you have written the Test Cases you are required to combine them into a single Test Suite.

Notes:

- The Venue class is an inner class of University.
- The University class contains the following collections:
  - `private ArrayList<Venue> venues;`
  - `private ArrayList<Modules> modules;`
  - `private ArrayList<Programmes> programmes;`
